☐ No: STOP here. The Oregon Department of Land Conservation and Development has determined that HUD projects outside of the coastal zone are consistent with the Oregon Coastal Zone Management Program. Record your determination on the EA, Statutory Worksheet or HUD Form 4128.

☐ Yes: PROCEED to #2

2. Does the project meet all applicable local and state water and land use requirements?

The Oregon Coastal Management Program (OCMP) integrates state permit authorities of the Departments of State Lands, Environmental Quality, Parks and Recreation, and Water Resources. The program also requires that all cities and counties in the coastal zone develop comprehensive plans that are consistent with the state's coastal zone requirements. To be consistent with the OCMP, a proposed project must be consistent with: the statewide planning goals; the applicable acknowledged city or county comprehensive plans (those plans approved by the Land Conservation and Development Commission as being in compliance with the statewide planning goals); and selected state authorities (e.g., those governing removal-fill, water quality, and fish and wildlife protections). All local and state permits for a project must be obtained for a project to be consistent with the OCMP.

☐ Yes: STOP here. Your project is consistent with the Coastal Zone Management Plan. Record your determination on the EA, Statutory Worksheet or HUD Form 4128.

☐ No: If the project will not comply with local or state water or land use requirements, work with the Ocean and Coastal Services Division of the Oregon Department of Land Conservation and Development to mitigate issues. (Contact Dale Blanton at (503) 373-0050 ext. 260; dale.blanton@state.or.us) Any project in the Territorial Sea (3 geographic miles into the ocean from the coastline) will require an additional review—please contact the Coastal Services Division to obtain a Goal 19 Checklist. Do not initiate the Project until CZM issues have been mitigated.
